The Fayetville Gazette says: The Lock's Creek Canal Co., organized for the drainage and improvement of about 20,000 acres of very valuable swamp land, on the east side of Cape Fear, has at length about finished its great work. Lock's Creek was tapped last week, and the waters were diverted into the canal with perfect success and satisfaction. By the last of this week, it is expected, the whole work will be completed. This is a very important and beneficial scheme of county internal improvement, and highly advantageous results will necessarily accrue

LADIES, BEWARE !- A Newark hus band brought home a chunk of molasses candy for his wife, the other evening, his wife wears false teeth. The candy was of an adhesive nature. She helped herself to a generous piece, and planted both rows of teeth in it. There they remained. Strenuous were her efforts to release them, but she was not successful. She wanted her mouth free that she might say something to her good man. She wanted to say something to him that the candy not only prevented, but the tone of which, from its prominent quality, it debauched .-But she could not get her jaws apart. Then she went to the sink and dropped the whole mass, teeth and candy, in a basin. Again she looked at him as if she was on the point of saying some-thing he would be interested in, but REPORT.—The Grand Jury reported every effort was broken up and destroyed by the orphaned jaws. > Charles Sumner's Moral Heroism. Mary Clemmer Ames, writing in the

Charles Sumner lived and died a moral hero to women. Such men alone appeal to the element of worship which lives ever in the unperverted woman,person the ideal of greatness, intellectual and moral. He was cast in the mold of the Vatican Apollo. "The shape and gesture proudly eminent" were his. His passion for truth, for honor, for justice; his devotion to human freedom, sealed with his blood, commanded their moral faculties. His Greek love for beauty in its purest forms, his exquisite tastes, his wonderful culture, which had gleaned in every field of human knowledge, sufficed the æsthetic nature of the higher order of women; while the marvelous sweetness of his smile, the gentleness of his courtesy, his reverence for the finest womanhood, made him ever in their eyes, from first to last, "the blameless knight," the ideal man.

Let no woman fear to own a capacity for such worship lest it shall be mis-taken and misjudged by the vulgar for weakling sentiment. Your God may not be a God at all; nevertheless, hold fast to your ideal to him—by so much will you bring him nearer to it. If it were possible for woman to cease to worship the sovereign in man, or for man to cease to revere the spiritual in woman, we might deplore, indeed, the speedy downfall of the race, which false prophets now delight to frensy. Through all his public tife, Mr. Sumner was the recipient of far-off adoring letters (in no sense to be confounded with love letters) addressed to him by his counwomen. These letters, received from strangers whom he never met, would have made many volumes. He num bered among his personal friends and private correspondents ladies of the highest rank and culture abroad, and of the finest gifts and most extended influence at home. Yet the woman who wailed aloud in the stormy street while she watched the receding train which bore the lifeless form of her friend to his final home was a woman-bent and old and poor-who keeps a little stand of traffic in a corridor of the Capital. The friends who care for him must

ever sigh as they recall the gray shadow of infinite weariness which settled upon him during the last few months of his stay here. It was the shadow of death stealing outward from the dark vally. Yet he never accomplished more labor than in the last winter. But you have lived as long as I have, surour strungles and weariness here, you D. D., L.L. Disorganization.

In all seriousness we put these questions—Have we any Conservative party in North Carolina? If we have a Conservative party, have its public men any sense or patriotism left? Or, are they determined to seek office at the expense of their professed principles? Are the newspapers that profess Conservative principles doing their duty in trying to stem this tide of disgraceful selfishness of our so-called leaders?

Thus the Charlotte Observer deplores the condition of the Democratic-Conegrative party. If the condition of the position is as would be inferred from Liose questions, it will meet a Waterloo next August.

MARSHAL'S OFFICE,

WILMINGTON, N, C., April 22, 1874. NOTICE.

I WOULD MOST RESPECTFULLY CALL the attention of the citizens to the fact that the warm and sickly season is near at hand, and it becomes my duty to adopt the hand, and it becomes my duty to adopt the most stringent sanitary measures at this particular time to preserve the health of the city and prevent the introduction of disease that may originate from foul and unwholesome matter, filth, garbage, trash and refuse matter which has a tendency to create unwholesome and offensive odors. In order to prevent as far as possible the spread of those diseases peculiarly incident to this season of the year I would most respectfully solicit the co-operation of the citizens generally in placing our city in such a sanitary condition as to render it as far as practicable impregnable, at least to those diseases condition as to render it as far as practicable impregnable, at least to those diseases which originate from foul and unwhole-ome matter. To this end the entire force of the city will be employed in cleansing, draining, cleaning, disinfecting and removing trash, &c., for at least the next fifteen or twenty days. All persons are requested to have the trash, offal, refuse matter, &c., cleaned from their premises and placed upon the streets, whence they will be removed immediately. When it is convenient please use boxes or barrels.

Persons needing disinfectants can have the same free of charge by calling at my office.

Respectfully, &c., GEO W. PRICE, Jr., april 28-tf City Marshal.

The Post is designed to reach all classes of citizens, and its subscription price is therefore placed so low as to be within the reach of all. It contains the LATEST NEWS, up-to the time of going to press, TELEGRAPHIC, COMMERCIAL AND LOCAL

THE ALDINE while issued with all the regularity, has none of the temporary or timely interest characteristic of ordinary periodicals. It is an elegant miscellany of pure, light and graceful literature; and a collection of pictures, the rerest specimens of artistic skill, in black and white. At though each succeeding number affords a fresh pleasure to its friends, the real value and beauty of THE ALDINE will be most appreciated after it has been bound up attine close of the year. While other publications may claim superior cheapness, as compared with rivals of a similar class, THE ALDINE is a unique and original conception—alone and unapproached—absolutely without competition in price or character. The possessor of a complete volume cannot duplicate the quantity of fine paper and engravings in any other shape or number of volumes for ten times its cost; and then, there are the chromos, besides!

ART DEPARTMENT, 1874.

The illustrations of THE ALDINE have won a world-wide reputation, and in the art centres of Europe it is an admitted fact that its wood cuts are examples of the highest perfection ever attained. The common prejudice in favor of 'ssteel plates," is rapidly yielding to a more educated and discriminating taste which recognizes the advances of superior artistic quality with greater facility of production. The woodcuts of THE ALDIFE possess all the delicacy and elaborate flaish of the most costly steel plate, while they afford a better rendering of the artist's original.

To fully realize the wonderful work which ART DEPARTMENT, 1874.

steel plate, while they afford a better rendering of the artist's original.

To fully realize the wonderful work which THE ALDINE is doing for the cause of art culture in America, it is only necessary to consider the cost to the people of any other decent representations of the productions of great painters.

In addition to designs by the members of the National Academy, and other noted American artists, THE ALEINE will reproduce examples of the best foreign masters, selected with a view to the highest artistic success and greatest general interest. Thus the subscribers to THE ALIENE will at a triffing cost, enloy in his own home the pleasure and refining influences of true art.

The quarterly tinted plates for 1874 will be by Thos. Moran and J. D. Woodward.

The Christmas issue for 1874 will contain special designs appropriate to the season, by our best artists, and willsurpass in attraction any of its predecessors.

PREMIUM FOR 1874.

PREMIUM FOR 1874.

Every subscriber to THE ALDINE for the year 1874 will receive a pair of chromos. The original pictures were painted in oil for the publishers of THE ALDINE, by Thomas Moran, whose great Colorado picture was purchased by Congress for ten thousand dollars. The subjects were chosen to represent "The East" and "The West," One is a view in the White Mountins New Hampshire the other gives the Cliffs, of Green River. Wyoming Territory. The difference in the nature of the scenes themselves in a pleasing contrast, and affords a good display of the artist's scope and coloring. The chromos are each worked from thirty distinct plates, and are in size (12 x 16) and appearance exact fac-similes of the originals. The presentation of a worthy example of America's greatest landscape painter to the subscribers of THE ALDINE was a bold but peculiarly happy idea, and its successful realization is attested by the following testimonial, over the signature of Mr. Moran himself PREMIUM FOR 1874. the Post, like its subscription price, are attested by the following testimonial, over the signature of Mr. Moran himself,

Gentlemen,—I am delighted with proofs the color of your chromos. They wenderfully successful representation by mechanical process of the original paintings.

Very respectfully,

(Signed,) THOS, MORAN,
These chromos are in every seaffed American, They are by an original American process, with material of American scenery by an American painter, and presented to subscribers to the first successful American Art Journal. If no better because of all this they will certainly possess an interest no foreign production can inspire, and neither are they any the worse if by reason of peculiar facilities of production they cost the publishers only a trifle, while equal in every respect to other chromos that are sold singly for double the subscription price of THE ALDINE. Persons of taste will prize these pictures for themselves—not for the price they did or did not cost, and will appreciate the enterprise that renders their distribution possible. If any subscribers should indicate a preference for a figure subject, the publishers will send "Thoughts of Home," a new and beautiful chromo, 11 x 20 inches, representing a little Italian exile whose speaking eyes betray the longings of his heart.

DAILY.

THE WEEKLY SUN is too widely known to require any extended recommendation, but the reasons which have already given it fifty thousand subscribers, and which will, we hope, give it many thousands more are briefly as follows.

It is a first rate newspaper. All the news of the day will be found in it, condensed when unimportant, at full length when o moment, and always presented in a clear intelligible, and interesting manner.

It is a first rate family paper, full of entertaining and instructive reading of every kind, but containing nothing that can oftend the most delicate and scrupulous taste. It is a first rate story paper. The best tales and romances of current literature are carefully selected and legibly printed in its pages.

ges.

It is a first rate agricultural paper, The most fresh and instructive articles on agricultural topics regularly appear in this decultural topics regularly appear in this department.

It is an independent political paper, belonging to no party and wearing no color.—
It fights for principle, and for the election of the best men to office. It especially devotes its energies to the exposure of the great corruptions that now weaken and disgrace our country and threaten to undermine republican institutions altogether. It has no fear of knaves, and asks no favors from their supporters.

It reports the fashions for the ladies and the markets for the men, especially the cattle markets, to which it pays particular attention.

Finally, it is the cheapest paper pulished. One dollar a year will secure it for any subscriber. It is not necessary to get up a club in order to have THE WEEKLY SUN at this rate. Any one who sends a single dollar will get the paper for a year.

This power is conferred upon City Constables by section 24, chapter 111, Battle's Revisal. So, all doubts upon the subject are now removed.

LITTELL'S LIVING AGE.

A weekly magazine of sixty-four pages, THE LIVING AGE gives more than THREE AND A QUARTER THOUSAND doublecolumn octavo pages of reading marter yearly, forming four large volumes. It presents in an inexpensive form, considering its great amount of matter, with freshness, owing to its weekly issue, and with a satisfactory completeness attempted by no other publication, the best Fssays, Reviews, Criticisms, Tales, Foetry, Scientific, Biog raphical, Historical, and Political Information, from the entire body of Foreign Periodical Literature.

A NEW SERIES Was begun Jan. 1, 1873, with entirely new Tales, already embracing Serial and Short Stories by distinguished English. French,

German, and Russian authors; viz., Lord Lytton (Bulwer,) Erckmann-Chatrian, Ivan Turgueniefi, Miss Thackeray, Mrs. Oli-phant, Fritz Reuter, Mrs Parr (author of "Dorothy Fox") Julia Kavanagh, &c. During the coming year, as herctofore, the choicest serial and short stories by the Leading Foreign Authors will be given to. Leading Foreign Authors will be given, together will an amount unapproa hed by any other periodical in the world, of the best literary and scientific matter of the

day, from the peris of the above-named and ether foremost Essayists Scientists, Critics, Discoverers, and Editors, representing every department of knowledge and progress.

The importance of The Living Age to every American reader as the above the control of th every American reader, as the only complete as well as fresh complleation of a generally inaccessible but indispensable currant literature,—indispensable because it embraces the productions of The Ablest LIVING WRITERS in all branches of Litera ture, Science, Art, and Politics,—is sufficiently indicated by the following
